

BATTERYcharge PRO 100A

The OSRAM BATTERYcharge PRO 100A is a professional, intelligent battery charger suitable for a wide range of battery types for 12V and 24V vehicles. Ideal for use when different vehicles and even entire fleets need to be maintained, especially in professional workshops or showrooms. By selecting different battery types and charging levels, the user can set the specific charge required for the different battery types. The BATTERYcharge PRO 100A can deliver variable charging currents up to a maximum of 100A. This is possible for lead-acid batteries as well as lithium batteries and start/stop batteries. Variable charging rates can also provide flexible slow or fast charging to meet the individual requirements of each user. An integrated test function additionally enables diagnosis of the battery and alternator. OSRAM's professional battery charger with integrated LCD screen runs through a 7-stage charge cycle for lithium batteries and a 9-stage charge cycle for all other batteries to restore and optimize battery performance and improve charge retention. With its light weight, the professional charger from OSRAM is easy to carry and transport around the workshop.

Product family datasheet

Technical data

Product description	Product information	Electrical Data		
	Application (Category and Product specific)	Charge Rate (Up to)	Maintenance Charge (up to)	Max battery capacity
Smart Charge Pro 100A	Professional Battery Charger	100 A	100 A	1000 Ah

Product description	Min battery capacity	Physical Attributes & Dimensions		
		Length	Width	Height
Smart Charge Pro 100A	14 Ah	250.0 mm	350.0 mm	90.0 mm

Product description	Environmental & Regulatory Information Information according Art. 33 of EU Regulation (EC) 1907/2006 (REACH)	
	Candidate list substance 1	Declaration no. in SCIP database
Smart Charge Pro 100A	No declarable substances contained	No declarable substances contained
